CFYD20/30/40 EXPLOSION - PROOF LIGHT

- **The scope of application:**

Applied to illumination for ship, oil exploit platform, chemical and explosive gas place zone 1 and 2. Temperature class T1-5 explosion dangerous places in the general distribution area.

- **Product feature:**

- 1.The shell adopts good quality steel by stamping molding, the surface of light is powder coated.
- 2.The lampshade is made of amine acid ester with impact resistance, corrosion resistance, heat-resistant transparent.
- 3.Clips adopts integral structure, with good waterproof performance.
- 4.Mounting type : hanging or ceiling.
- 5.The whole light adopts flameproof type, increased safety type of explosion-proof structure.
- 6.Cable outside diameter is Ø11-Ø12mm.
- 7.Equipped with B15d emergency lamp holder, installation 24V/1.5W emergency light, please note when you sign the contract.

- **Products Certification:**

- 1.This lamp has been inspected and certified by China National Lighting Fitting Quality Supervision Testing Center and National Supervision and Examination Testing Center and Explosion protected and Safety of Luminaire (NECESL).
- 2.Approved by type approval of CCS(China Classification Society) and type approval of BV(France Classification Society)

Type	CFYD20-2/2E	CFYD30-2/2E	CFYD40-2/2E
L(mm)	742	1042	1342
L1(mm)	700		
Explosion proof mark	Ex em b II T5gb		
Explosion proof quality certificate number	NLE12.0567X		
Voltage	220V/50Hz 220V/60Hz 110V/60Hz		
Power	18WX2	30WX2	36WX2
Lamp holder	Fa6		
Protection Class	IP66
